RSO Course (Range Safety Officer Course)

Chief RSO Course (Instructor Course)

The above listed classes are official NRA certification courses. As with all NRA classes, they will be taught in a classroom. The first class (RSO) will begin at 8:00 A.M., normally on a Saturday, and should conclude around 2:00 or 3:00 P.M. This is the student class.

The second class (Chief RSO) is an instructor class and will begin at 9:00 A.M., normally on Sunday. The class itself will last about the same amount of time, maybe a little less. This is an instructor class and, as such, has a pre-requisite class the NRA calls B.I.T. (Basic Instructor Training) It lasts 6 hours. Current plans are to begin the B.I.T. class immediately following the regular RSO class Saturday afternoon. We should be able to finish everything by Sunday afternoon.

I have made arrangement with a local motel for special discounted rates for my students. It is the Affordable Inns of Montrose and is located a short distance from the class room. (Information on web site).

Sincerely

Larry D. McWhirter

NRA Certified Instructor & Training Counselor
