Advanced Pistol Class

Featuring "Real Life" Shooting Applications & Techniques

This class begins where our basic/intermediate class leaves off. It is an advanced class in every sense of the word. There is no classroom time, we spend all our time on the range doing what we all love doing - shooting! Emphasis will be on real world scenarios & shooting while moving to cover in order to maximize distance & minimize yourself to the threat. Speed movement in all directions will be covered and practiced and students will engage moving targets. Students will shoot 500 to 600 rounds of ammunition. Comparable to other courses costing \$400 or in some cases as much \$700 or \$800. At only \$250 we believe this is a real bargain.

Times listed are suggested times for pistol shooters. As we all know, revolvers are a bit slower than pistols, so revolver shooters can add time to the suggested minimums.

Range Work

Shoot to Zero Sights & to gain an additional understanding of muzzle rise.

Shooting With Movement & "Failure Drill" Practice Movement!

Back, Forward, Left, Right

Strong Hand Shooting

Weak Hand Shooting

Barricade Shooting

Kneeling

15 Yards

25 Yards

Prone

25 Yards

50 Yards

Timed Shooting

Two Rounds Center Of Mass (1.75 sec. or less)

Failure Drill (2.0 Sec.)

Advanced Failure Drill

Review Difference Between Cover & Concealment

Shooting From & Around Barricades

Kneeling & Standing

Approach

Moving To Cover - Backward, Forward, Sideways & at angles. Slowly at first, then building speed. (Different methods will be discussed including advantages and disadvantages of each.)

Kneeling & Prone will be Practiced

Close Quarters Shooting (CQB)

Shooting From Sitting Position

Shoot Four Targets, Two Rounds Each, 180 Degrees From one another under Hostage Situation Conditions (Timed Exercise) Done from cover.

Shooting From Concealed Carry

Disarm Suspects ADPS (Arizona Department of Public Safety) and other methods.

Shooting From & Around Vehicle

Speed Reloads from Kneeling & Standing Positions

Add Movement

Tactical Reloads With Movement

Engage Targets spaced Around Range

Shooting From Concealed Carry (Additional)

Practice Determining & Shooting Greatest Threat First

Engage moving targets

Point Shooting

Advanced Shooting (From Vehicle)

Start From Vehicle, Shoot 3 targets (2 Rounds minimum Per target), Speed Reload, Run to Barricade (Cover)

Shoot From Barricade, Two rounds at each of four targets, Speed Reload, Run to Next Barricade

Engage Four or More targets from Second Barricade, firing two or three Rounds Per Target.

Shoot only the bad guys. Speed / Tactical reloads as necessary

This is a timed exercise and should be completed in 45 to 60 Seconds.

Advanced Shooting (From Moving Vehicle)

Introduction to Executive Protection

Advanced Night Shoot!

Engage Various Targets Located Around the Area, Avoiding Shooting the "GOOD" Guys with emphasis on shooting the greatest threats first.

Since A minimum of 25 Rounds will be fired in this scenario, several speed and/or tactical reloads will be required. We have a couple of surprises planned during this exercise.

We promise you will have a great time and learn numerous advanced practical shooting skills. This list is purposely not complete. I have spent a great deal of time and money gaining sufficient education & training so I feel comfortable offering this class. I don't want to give competitors all the details of the class.
